4. Fill out the corresponding quarterly reports in **Section 4: Quarterly Priority Narratives** in your EMPG workbook.
5. Once the corresponding information in sections 1, 2, 3, and 4 are filled out, **save the document to your computer as a FILLABLE PDF. Any other formats will not be accepted.**

**NOTE: Make sure you continue to use the same workbook for each quarter to build on the information as the year progresses. As you progress through each quarter it is best practice to save the most current workbook document to your computer and then upload it to AmpliFund for your quarterly report submittal. Always keep a backup of the most current workplan and quarterly status reporting workbook for your records. MT DES only has a copy of the most recently submitted version. You may fill out the information in the Workplan quarterly report section as the quarter is progressing to save time at the end of the quarter.**

14. Once finished click **Create** at the bottom.
  - a. **Note: Only hit the Create button once!** It will seem as though nothing happens after you hit Create but the system will accept your submittal. If you hit Create multiple times, it will create a performance report for each time you hit Create. Let's say you hit Create 3 times, the system will create 3 reports for that corresponding quarter. If this happens the sub-recipient will need to delete any extra reports that were created.
