

## Homeland Security Grant Application Window Now Open

*January 12 – Helena, MT*

The 2023 State Homeland Security Grant application is open and can be found on our website at [State Homeland Security Grant \(mt.gov\)](https://mt.gov/state-homeland-security-grant) or under the Grants Tab. The application window will close on March 10, 2023.

The Homeland Security Grant is a risk-based grant to assist state, local, tribal, and territorial efforts in preventing, protecting against, and mitigating acts of terrorism and other threats. The program supports the use of risk driven, skill-based approaches to address potential targets set in urban, state, and regional threat or hazard risk plans.

For more information, please see the additional resources at [State Homeland Security Grant \(mt.gov\)](https://mt.gov/state-homeland-security-grant). Be sure to coordinate with your local planning committee (LEPC) before applying.

The State Homeland Security Grant is a competitive grant, so while the applications are open, our grants managers may be limited on the types of questions they can answer. If you have questions, please read through the resources on our website. If you have technical questions please reach out to MT DES Grants Manager, Justin Webster -- [Justin.Webster@mt.gov](mailto:Justin.Webster@mt.gov).
