

LEPC Speakers List

Navigating the complexities of EPCRA (Emergency Planning and Community Right-to-Know Act) and LEPC (Local Emergency Planning Committee) topics, alongside the critical integration of hazardous materials response, can often feel overwhelming for Montana's jurisdictions. Recognizing that each community faces unique needs and challenges, the State Emergency Response Commission (SERC) has compiled this valuable Speakers List to empower your efforts.

On the following pages, you'll find a diverse group of experts ready to share their knowledge and offer fresh perspectives directly relevant to your LEPC or partner organizations. These speakers can help address specific gaps, provide in-depth training, and introduce you to best practices from other areas, ultimately helping your community make significant progress in emergency planning and hazardous materials preparedness. We encourage you to reach out and engage these professionals to enhance your local capabilities.

Please be aware that engaging speakers from outside Montana may involve payment or reimbursement for their travel and services. The jurisdiction requesting the presentation is responsible for these financial arrangements.

List of Speakers

Name	List of Topics
